

•• SMARTSLING™

Developed in association with key industry opinion leaders, the SmartSling™ was designed to fulfill three fundamental objectives: versatility, comfort, and ease of application.

SmartSling's dynamic 3-in-1 design provides abduction, external rotation and/or immobilization, resulting in reduced stocking and inventory management costs.

- Gusseted chamois neck pad contours to patient anatomy for improved comfort
- Quick-release buckles for easier application and removal
- Re-positionable thumb loop for improved fit and comfort
- Softedge™ strapping: easy to trim without seams or stitches that fray
- Only 2 sizes/parts to stock, as product can be used for right or left arm
- Included underarm pillow helps distribute weight over a larger surface area and decreases pressure on the ulnar nerve
- Mesh base material is skin friendly and breathable
- Thermal-molded foam padding provides more support than fabric and eliminates uncomfortable bottom seam
- Low-profile, streamlined fit and contemporary, sporty look improve patient comfort and compliance

Indications:

- Immobilization for rotator cuff repairs
- Bankart repairs
- Capsular shifts
- Glenohumeral dislocations/subluxation
- Soft tissue repairs/strains
- Shoulder instabilities/injuries
